Subject: OOPS! new Date set for PH Recontamination Evaluation strategy discussion
Importance: High

All:

Apologies for poor reading skills. We will not have a quorum on Mar 9th, so I have rescheduled the meeting for Mar 5th at 10 am and I will send agenda and phone info prior. Let me know ASAP if you have a conflict with the new date and we'll see what the week after looks like. Hopefully the 5th will do it.

Thanks.

Hi All.

Thanks for your responses. Based on everyone's availability, let's reserve March 9th at 2pm for a discussion. It may take less time, but I'd like to reserve 2 hours. I will send an agenda/talking points and call in number information at the beginning of the week of Mar 5th or sooner.

Talk to you then.

Hiya!

As discussed at the Dec TCT and subsequently through various channels, I'm putting out a little poll to set a date/time for a follow up discussion on a joint DEQ/EPA Recontamination Evaluation approach. Please visit the link and provide your availability for a two hour time slot beginning at the times listed.

While I will prepare a more pointed agenda to circulate once the date is set, I welcome your input on discussion direction. I have attached the draft assumptions/parameter issues I provided for the TCT meeting as well as EPA's previous comments on the Zidell RE work plan and the recent comments on T-4 & Arkema REs from EPA/CDM.

Please send this invite to the appropriate CDM and other folks that will be valuable for this discussion. I will need their email addresses to follow up.

Thanks and talk to you soon!
